

# Wellness IV Menu

## Midbase Myers

\$195

The classic Myers Cocktail is the nutrient foundation formula to give your body a solid start to any type of healing or health maintenance. It supports basic nutrient deficiencies (and insufficiencies), plus helps with energy, productivity, and general wellness. It also provides the support you need while healing your gut or getting over a recent cold.

## Immune

\$235

Myers Cocktail with a generous amount of Vitamin C, plus glutathione and antioxidants for optimal immune support.

## Nutrition Plus+

\$250

This enriched formula helps those with conditions causing muscle wasting or poor weight gain. Cancer patients benefit from this pre, post, and during treatments where decreased appetite is an issue.

## Heart IV

\$195

Specially designed for those with high blood pressure, elevated cholesterol, or on heart medications. This IV is boosted with magnesium and arginine. We also suggest a CoQ10 injection add-on to help with energy

## Perform

\$210

This blend is a combo of Myers nutrients with amino acids and taurine which are important in mitochondrial energy production to boost mental clarity and performance.

## Hydrate

\$130

Physiologic salt water or another electrolyte solution that will fill up your tank after intense exercise, jet lag, or a weekend of celebrating.

## Heal

\$230

Preparing or recovering from surgery? Let us help you get your body into a healing state. We love this combo of vitamins and amino acids to jumpstart your healing process!

## Asthma/ Allergy Support

\$195-\$205

Needing a little support to get rid of your histamine release? This infusion helps those with mild to moderate flares causing wheezing, rash, or swelling reactions that are non-emergent.

We can create custom IV packages for clients depending on their health concerns.

Unfortunately, we do not bill insurance or provide superbills. **All IV services expire within one year of purchase.**

*Pricing subject to change.*

# Wellness Injections

## B-12 \$30 / MethylB12 \$40

Increases energy and regulates sleep, mood, and appetite cycles. Methyl B12 is an activated form of B12.

## Vitamin D3

50,000iu \$50 | 100,000iu \$60

The "Alaskan" vitamin! Beneficial for the immune system and overall Alaskan health.

## CoQ10 \$30

CoQ10 decreases with age. It is an antioxidant, boosts the body's energy production, and protects our cells from damage.

## MIC-B Series \$200+

Contains methionine, inositol, choline, and B12 helps increase energy, boost metabolism, and helps utilize and burn fat.

Buy 4 or more IV services and save.

IV's purchased with this promo expire in one year from purchase date.

## Specialty IVs

### Iron

\$250+

For treatment of iron deficiency anemia from chronic blood loss (i.e. fibroids, heavy periods, etc.) or those who do not tolerate oral iron.

### PTC

\$190

Phosphatidylcholine (PTC) replacement is used to repair cell membranes that have been damaged. It has been used to successfully support cardiovascular, mental, sexual, and hepatic health.

### NAD+

250mg - \$375

500mg - \$575

NAD+ has many important roles for health, including enhancing anti-aging activities of chemicals and the enzymes that repair damaged DNA. NAD+ is necessary for healthy metabolism and energy production.

### Medical Hyperbaric Ozone

3-pass \$590 5-pass \$850

10-pass \$1500

Covid or Longhaul got you down? This IV treatment is great to help with viruses, bacterial and fungal infections. Helpful for mold, lyme, cancer, and other co-infections. Supports the immune system directly. Testing required before treatment.

### Hemealumen

\$350+

This IV gives light energy support directly to the bloodstream. Red, Amber, and UVC light on the blood has shown to inactivate bacteria, fungi, and viruses, while also supporting mitochondria to increase energy and boost the immune system!

## Ready to get started?

### For Clients wanting a Wellness Infusion or Injection:

Schedule a one-time IV Nutrition Consultation either online or by phone. This screening visit is to determine the safety of IV therapy for you and does not include diagnosis or treatment recommendations other than for one of the specific wellness IVs we offer.

**Price: \$25-75 depending on complexity**

### For IV Therapy for Specific Medical Conditions:

We welcome a referral from your health practitioner or schedule an IV Nutrition consultation with us.

Special Wellness IVs may require a longer medical provider visit or more extensive blood screening tests so we can provide an optimal IV wellness plan for your goals.  
\$100-\$200/consult fee (Nutrients are an additional cost)

### Location

4001 Geist Road, Ste 6  
Fairbanks, AK 99709
