

IV SERVICES

Fairbanks now has a place to receive IV nutrition + hydration!

IV nutrition is superior to oral vitamins because it goes directly into your bloodstream making it available right away for your body to use. Even those that lead a “clean” life can benefit from nutrients and hydration during seasonal threats, long nights out, or weekend warrior excursions.

Who Benefits?

IV infusions can be beneficial for many health conditions including but are not limited to the following:

- General Wellness
- Dehydration
- Common colds, viruses, and flu
- Chronic Fatigue
- Cardiovascular disease
- Cancer
- Environmental Toxicity
- Migraine
- Stress management
- Respiratory illness
- Immune system deficiencies
- Anxiety and Depression
- Insomnia
- Weight Loss
- Respiratory illness
 - Athletic Performance & related injuries

Wellness IV Menu

Midbase Myers

Single \$195 | 4-PK \$624 (\$156/infusion)

The classic Myers Cocktail is the foundational formula to give your body a solid start to any type of healing or health maintenance. It supports basic nutrient deficiencies (and insufficiencies), plus helps with energy, productivity, and general wellness. It also provides the support you need while healing your gut or getting over a recent cold.

Perform

Single \$210 | 4-PK \$672 (\$168/infusion)

This blend starts with the Light Base nutrients with amino acids and taurine which are important in mitochondrial energy production to boost mental clarity and performance.

Heal

Single \$230 | 4-PK \$736 (\$184/infusion)

Preparing or recovering from surgery? Let us help you get your body into a healing state. We love this combo of vitamins and amino acids to jumpstart your healing process!

Immune

Single \$235 | 4-PK \$752 (\$188/infusion)

Myers Cocktail with a generous amount of Vitamin C, plus glutathione and antioxidants for optimal immune support.

Hydration

Single \$130 | 4-PK \$416 (\$104/infusion)

Physiologic salt water or another electrolyte solution that will fill up your tank before/after exercise, jet lag, or a weekend of celebrating. Zofran optional add-on.

Asthma/Allergy Support

Single \$195-\$205

Needing a little support to get rid of your histamine release? This infusion helps those with mild to moderate flares causing wheezing, rash, or swelling reactions that are non-emergent.

Nutrition Plus+

Single \$250

This enriched formula helps those with conditions causing muscle wasting or poor weight gain. Cancer patients benefit from this pre, post, and during treatments where decreased appetite is an issue.

Heart IV

Single \$195

Specially designed for those with high blood pressure, elevated cholesterol or on heart medications. This IV is boosted with magnesium and arginine. We also suggest a CoQ10 injection add-on to help with energy.

Wellness Injections

B-12 \$35 / MethylB12 \$40

Increases energy and regulates sleep, mood, and appetite cycles.

Vitamin D3 \$50 / \$60

The "Alaskan" vitamin! Beneficial for the immune system and overall Alaskan health.

CoQ10 \$30

CoQ10 decreases with age. It is an antioxidant, boosts the body's energy production, and protects our cells from damage.

MIC-B Series \$200+

Contains methionine, inositol, choline, and B12 to help increase energy, boost metabolism, and helps utilize and burn fat. These series of injections are best paired with a low-carb food plan. MethylB12 option.

Specialty IVs

High Dose Vitamin C

25G / 50G / 75G / 100G - \$265+

High-dose vitamin C has shown to be pro-oxidant, selectively killing cancer and other G6PD deficient cells. It also has anti-inflammatory activity resulting in suppression of tumor proliferation, angiogenesis, and metastasis. It is also used as an oxidative therapy supportive against viral infections.

Iron

100mg - \$250 | 200mg - \$300

For treatment of iron deficiency anemia from chronic blood loss (i.e. fibroids, heavy periods, etc.) or those who do not tolerate oral iron.

PTC

Single \$190 | 4-PK \$650

Phosphatidylcholine (PTC) replacement is used to repair cell membranes that have been damaged. It successfully supports cardiovascular, mental, sexual + hepatic health.

**All IV infusions are 500ml (½ liter).
Additional hydration is available
+500ml - \$12.50 +1000ml - \$25**

NAD+

250mg - \$375 | 500mg - \$575

NAD+ has many important roles for health, including enhancing anti-aging activities of chemicals and the enzymes that repair damaged DNA. NAD+ is necessary for healthy metabolism and energy production (mitochondria health). Low NAD+ has been associated with chronic fatigue, cardiovascular disease, weight gain, and autoimmune diseases such as Multiple Sclerosis.

Medical Hyperbaric Ozone

3-pass \$590 | 5-pass \$850

Covid or Longhaul got you down? This IV treatment is great to help with viruses, bacterial and fungal infections. Helpful for mold, lyme, and other coinfections. Supports the immune system directly. Testing required before treatment.

Hemealumen

\$350+

This IV gives light energy support directly to the bloodstream. Red, Amber, and UVC light on the blood has shown to inactivate bacteria, viruses, while also supporting mitochondria to increase energy and boost the immune system! Can be used in conjunction with ozone treatments

Ready to get started?

New IV program patients need to be medically screened by our practitioner. It's a quick consult that ranges from \$25+ based on time and complexity.

IV Therapy for Specific Medical Conditions: We welcome referrals but they are not required. We can send a referral form upon request that will include recommendations for screening blood tests.

Note: Special Wellness IVs may require a longer medical provider visit or extensive blood screening tests so we can provide an optimal IV wellness plan for your goals. \$100-\$200/consult fee.

Pricing

Package pricing recommended for best results. Unfortunately, we do not bill insurance. *Pricing is subject to change at any time.*
